

## PVC model doors

We create model doors based on the most popular window and door systems in our offer. In this way, we guarantee perfect aesthetic consistency of the woodwork throughout the house. At the same time, we use solutions with the best performance parameters. The panels can adapt various glazing layouts and use the same colour schemes as windows.

Profiles from which the door can be made (Aluplast colours):

- Ideal 4000
- Ideal 5000
- Ideal 8000
- EkoSun 70

Profiles that can be used to make doors (Salamander colours):

- BluEvolution 92

## Warm threshold

We offer the installation of a warm threshold in two variants. The customer can choose to install it with insulation material or on a PVC system extension. In both cases, the user will gain proper thermal insulation below the floor. This solution prevents the formation of thermal bridges, thanks to which cool air does not get inside the room.

## Threshold-free external door

They are distinguished by a double magnetic gasket in a flat threshold and levelling with the floor level up to 30 mm. Thanks to these features, the barrier between the apartment and the terrace is almost non-existent. Children, the elderly and people with disabilities enjoy the comfort of moving around the house without obstacles. The harmony of the living room with nature and the surroundings allows you to enjoy the charms of warm days.

## Door **accessories**

Accessories for the offered doors are not only a wide selection of handles and handrails in various shapes and colours. In addition to them, there are also additional technological solutions for hinges or espagnolette, as well as letterboxes or peepholes or devices controlling access to the building. The catalogue presents basic door accessories, the full offer is available in the sales department.

## DOOR HINGES

Standard hinges (JOCKER Dr. Hahn, Wala WX and SFS Easy 3D)

## Available colours

Exterior doors are more and more often a decorative element of both the entire building and the interior.

- Aluminium products can be covered with powder paint or veneer, and patterns can be created on them.
- Steel products look great in their natural form and can be painted in all colours from the RAL palette.
- Wooden doors can be can be varnished. Huge decorative possibilities are also offered by the choice of many types of wood.
- The basic way to decorate PVC is the selection of the colour and structure of the veneer. We have a wide range of colours for smooth and wood-like veneers, as well as profiles with a satin surface made in the acrylcolour technology.
