

Door panels

Doors from the Eco, Alu and Wood lines are the most popular, universal solutions, chosen by the largest group of customers. We offer a wide range of designs. We allow customers to create their own projects, which we then implement for them. The materials and production techniques used ensure durability and ease of cleaning. Glazing can be installed in the doors.

**Available colour
options:**

- Aluplast
- Salamander
- Gealan
- RAL
- Teknos

Panel fillings available:

- composite + XPS extruded polystyrene
- foam
- plywood + XPS extruded polystyrene

**Materials from which
the door can be made:**

- PVC
- Aluminium (ALU)
- Wood

Panel filling

We offer our customers panels with three types of filling - polyurethane foam, plywood or XPS extruded polystyrene. Each of them can be 24, 36 or 48 mm thick. Panels, depending on customer preferences and technical requirements, are made of HPL boards or aluminium sheet. HPL boards are veneered, sheet metal – varnished. On the other hand, in wooden doors, we offer panels with a thickness of 24, 34 and 46 mm.

Door glazing

As a standard, glazing in door panels is made of frosted glass. In panels with a thickness of 24 mm, we use safety glass on the external side. In panels with a thickness of 36 and 48 mm, the glazing is made of safety glass on both sides.

VSG 33.1 MAT

48 mm panel

external side (safety glass)
VSG 33.1 ONE MAT
4mm float glass
internal side (safety glass)
VSG 33.1 MAT

Safe glass

Safety glass is made by covering the glass with special polyvinyl butyral films. In case of glass breakage, the glass fragments remain attached to the film (VSG glass). Tempered safety glass is characterised by greater resistance to breakage and temperature changes (ESG glass). Broken glass of this type breaks into small pieces with blunt edges, which reduces the risk of injury.

Ornamental glazing

We offer a wide range of glass with a motif, made of transparent glass and ornamental glass in the most popular patterns. Ornamental glass will work in homes, offices, shops, hotels and restaurants. It provides privacy and brightens the interior.

Warm threshold

We offer the installation of a warm threshold in two variants. The customer can choose to install it with insulation material or on a PVC system extension. In both cases, the user will gain proper thermal insulation below the floor. This solution prevents the formation of thermal bridges, thanks to which cool air does not get inside the room.

Threshold-free external door

They are distinguished by a double magnetic gasket in a flat threshold and levelling with the floor level up to 30 mm. Thanks to these features, the barrier between the apartment and the terrace is almost non-existent. Children, the elderly and people with disabilities enjoy the comfort of moving around the house without obstacles. The harmony of the living room with nature and the surroundings allows you to enjoy the charms of warm days.

Door **accessories**

Accessories for the offered doors are not only a wide selection of handles and handrails in various shapes and colours. In addition to them, there are also additional technological solutions for hinges or espagnolette, as well as letterboxes or peepholes or devices controlling access to the building. The catalogue presents basic door accessories, the full offer is available in the sales department.

DOOR HINGES

Standard hinges (JOCKER Dr. Hahn, Wala WX and SFS Easy 3D)

Roller hinges (SFS Wala WR)

Concealed hinges (KFV AXSENT)

DOOR LOCKS

Available espagnolettes: 3-point, 5-point, 4 rollers, hook and automatic

MOTOR FOR DOOR LOCKS

G-U Security Automatic engine available

DOOR CLOSERS

Models available: GEZE, G-U lockable or non-lockable, Geze Boxer, Dorma93b, Geze5000

ACCESS CONTROL DEVICES

There are devices with a numeric key-pad, using RFID cards and scanning fingerprints.

VISORS

Visor with a diameter of 14 mm, satin chrome finish. Available for filling from 15 to 85 mm.

MAIL SLOTS

Available models: MILA ProStyle, MILA, GAVA

Available colours

Exterior doors are more and more often a decorative element of both the entire building and the interior.

- Aluminium products can be covered with powder paint or veneer, and patterns can be created on them.
- Steel products look great in their natural form and can be painted in all colours from the RAL palette.
- Wooden doors can be can be varnished. Huge decorative possibilities are also offered by the choice of many types of wood.
- The basic way to decorate PVC is the selection of the colour and structure of the veneer. We have a wide range of colours for smooth and wood-like veneers, as well as profiles with a satin surface made in the acrylcolour technology.
